

Metal Mantel Clock - Aeroplane Arabic Dial 31.5cm

Product Images

Short Description

A distinctive, metal mantel clock in the shape of a vintage Biplane, from Hometime. This is the perfect gift for an automotive enthusiast, who likes vintage pieces for the home. This statement clock takes the form of a vintage aeroplane and would look great on a mantelpiece or cabinet. The front of the plane doubles as an easy to read clock face, with an arabic dial and black serpentine hands. It requires one AA battery for use. In a world where stand alone time pieces are no longer a necessity, Hometime was launched in 2010 as a fresh new take on clocks that brings a trend led but practical home interior styling alongside the quality of a long lasting keepsake. With a broad and affordable range of stylish, modern and vintage designs influenced by contemporary architecture and artefacts and accompanied with quirky, shabby chic and colourful features, Hometime stands alone in its timeless appeal and scale of offering for every home interior, theme or style.
